Summary

Results-oriented B.Tech graduate in Artificial Intelligence & Machine Learning with hands-on experience as a MERN Stack Developer Intern. Proficient in C++, JavaScript (ES6+), React.js, Node.js, Express.js, MongoDB, and REST API design. Demonstrated success in optimizing database performance, designing secure JWT authentication, and building scalable full-stack web applications. Possesses a strong foundation in Data Structures, Object-Oriented Programming (OOP), and software engineering principles. Seeking an Associate Software Developer role to contribute to high-impact development projects.

Technical Skills

Languages: C++, JavaScript (ES6+), HTML5, CSS3

Frontend: React.js, Tailwind CSS

Backend: Node.js, Express.js

Database: MongoDB, MySQL

Tools & Technologies: Git, GitHub, Postman, REST APIs

Experience

Systrac Pvt. Ltd.

Backend Developer Intern

May 2025 – Aug 2025

Jaipur, India

- Optimized MongoDB data structures, resulting in a **30% faster** information retrieval speed for large-scale datasets.
- Engineered a secure login system using JWT and role-based access, protecting sensitive data for over 200 daily active users.
- Streamlined REST API workflows to handle essential data operations, significantly boosting overall system performance.
- Partnered with the frontend team to refine communication between systems, successfully cutting down page response times by **20%**.

Regrip India Private Limited

MERN Stack Developer Intern

2026 – Present

Jaipur, India

- Created a new dashboard feature using React.js that saved internal staff **25%** of their manual data entry time.
- Improved existing API code to be more organized, which lowered server-side errors by **15%**.
- Set up automated tools to handle software updates, saving the team **20%** of their time on manual deployments.
- Collaborated closely with the team to fix bugs and deliver new features quickly, meeting all project deadlines.

Projects

Turban Store (MERN E-commerce)

May 2025

- Developed a complete e-commerce platform using **MERN stack**, featuring user authentication and product management.
- Built an admin dashboard for managing **50+ products**, including category updates and inventory tracking.
- Enhanced user experience with product search, filters, and responsive design.
- Optimized frontend performance via React lazy loading and Tailwind CSS.
